

KINDNESS

By Amelia Kopeczy and
Alyssa Herrera

WHAT IS KINDNESS?

Kindness is the quality of being friendly, generous, and considerate.

Examples of Kindness

- 1) If you see somebody feeling sad and sitting alone go up to them and be their friend
- 2) Help friends/people out even if you don't know them

Being kind is a Gift to everybody, you just have to make it happen

Have you ever had somebody be kind to you and you didn't even know them? If so do you remember what they did and how did it make you feel?

You
give me
butterflies.

Lesson

The lesson for kindness is treat others how you wanna be treated and never let anyone feel down or unhappy. However you act around your friends or new friends that's probably how they would act to you.
